

Astound Cleaning leads the industry standards in cleaning technology and safety. As a founding pillar in the Astound Facilities Group proposition, we take pride in our work with close attention to detail and a friendly professional approach, alongside a dedicated customer quality control programme that keeps us ahead of the competition in this highly competitive space. We are proud of our flagship services with the Astound Standard guaranteed.

Why choose us for your drain services?

At Astound Drain Cleaning we know our business inside out and can offer you our expertise, state of the art cleaning technologies and excellent client services. We have a unique approach to drain cleaning with the use of 'hot water' cleaning systems which makes a huge difference to the final results.

About Astound 'Hot Water' Drain Cleaning Services

Our unique approach to drain cleaning with the use of heated water is through our 'Hot Rod' drain cleaning unit. We created this through client feedback and research of the latest drain cleaning technologies.

Commissioning the design and manufacture of this ultimate system was a joy for our team. It runs on Bio Fuel to produce an incredible 4000psi pressure jet of heated water, whilst remaining considerate to the environment and retaining our impressive company-wide carbon neutral standing.

What do we do that is different?

- Blocked drain cleaning and unblocking with 'Hot Rod' system
- Free drainage inspection & commercial assessments
- Storm/rain water drainage repairs
- Grease traps, Septic tanks, Relining
- Soak-aways, De-watering recycling
- Servicing and maintenance contracts
- Health & Safety reports
- 24 hr call out service 365 days a year
- All work guaranteed
- CCTV drain surveys
- Per minute billing & satellite tracking
- Credit cards accepted from the vehicle

Our brand new fleet of Astound vehicles are fitted with eco-friendly, high pressured HOT WATER drain cleaning solution as standard. Using heated water dramatically improves the time it takes to unblock, especially when in contact with debris coated in grease and oil.

This 'Hot Rod' system not only blasts its way through any blockages, but will also act to remove scale and build up of debris that may contribute to future blocks. This revolutionary approach will leave your drains with a better clean which is more effective than other cold water systems.

We can also help you with:

- CCTV surveys with wincrn reporting
- Drain relining
- Pitch fibre rerounding
- Manhole sealing
- Excavation & repair
- New installations
- Pipe descaling
- Grease trap emptying/servicing
- Septic tank emptying/servicing/syphon pipe replacement
- Water treatment plant servicing
- P.P.M. servicing maintenance contracts
- State of the art waste recycling including all E.A. paperwork
- Vacuum tankering
- Road sweeping
- Work in partnership with local councils
- Worthing NHS Hospital approved contractor
- Air testing/water testing to drainage installation
- Lake, pond and recycling
- Mobile sludge De-watering
- Road sweeping

We look forward to hearing from you and to being able to demonstrate how we can make a difference to your business with our 'Hot Rod' solutions.
