- Roof repairs
- Bathroom repairs and installations
- Kitchen repairs and installations
- Tiling
- Plastering
- Damp proofing

We offer a number of different specialist services, please contact us to discuss your requirements for a free quotation.

What do we do that is different?

We carry out a full detailed site survey accompanied with photographs and detailed information on your site and requirements. This service will identify any areas that require attention and plan for any future maintenance requirements that property may have.

This information is stored centrally on our CRM Database to enable our maintenance teams to be aware of your specific site details and product requirements. This service saves you time and money by offering a proactive fix approach in advance when a faulty product is identified and efficiently replaced. We can then customise a maintenance package to suit your needs.

We can also help you with

- Everything you require from a maintenance company in just one phone call
- An electrician to test the installation of your property
- A gas safety certificate on your boiler, hob or fire
- A plumber to service your boiler
- A carpenter to re-hang your warped doors
- A painter to re-decorate your stairwell
- Grout and silicone refurbishment or re-applying service

We offer you a full renovation service to bring your property up to date or refurbishment if a tenant has just moved out of the property.

Burglary and crime assessment

Is your property protected from crime? Have you taken all precautions needed to prevent your property from attack from opportunist criminals?

Let us carry out a security assessment of your property. We provide a full detailed report with accompanying photographs. Any aspects of your property which are lacking in security a detailed resolution plan will be provided.
